2.EXECUTIVE

Per offrire massimo comfort, un sistema di movimento dello schienale basato su movimento di sincronizzazione a 5 posizioni con oscillazione di 18 gradi, ed inclinazione da 90 a 108 gradi con tre posizioni intermedie. Con il supporto lombare regolabile si aumenta ulteriormente la comodità. A completare la ricca dotazione, il sedile scorrevole e la possibilità di regolare i braccioli, con poggibraccio scorrevoli, sia in altezza che in larghezza e profondità.

In order to offer maximum comfort, its backrest movement system is based on a 5-position movement with an oscillation range of 18 degrees, and inclination from 90 to 108 degrees with three intermediary positions. Its adjustable lumbar support increases your comfort. The entire set is completed with a sliding seat and the possibility to adjust the armrests in height, width and depth.

Pour offrir le maximum de confort, un système de mouvement du dossier basé sur un mouvement de synchronisation à 5 positions avec oscillation de 18 degrés, et inclinaison de 90 à 108 degrés, comprenant 3 positions intermédiaires. Avec son support lombaire réglable, le confort est ainsi optimisé. En complément de ces solutions déjà richement équipées, le siège coulissant et la possibilité de régler les accoudoirs, avec repose-bras coulissants, en hauteur, largeur et profondeur.

4. WAITING

Il corpo della sedia VISITATORE può essere disposto lungo una linea orizzontale montando più sedili su trave portante, ottenendo così un sistema di sedute allineate, di estrema praticità nella razionalizzazione degli spazi e degli ambienti lavorativi.

The body of the GUEST CHAIR can be positioned along a horizontal line, assembling more than one chair on a support beam. You now have a system of aligned seats, extremely practical in terms of space organization.

Le corps du siège VISITEUR peut être disposé le long d'une ligne horizontale en montant plusieurs sièges sur une poutre portante, obtenant ainsi un système d'assises alignées très pratique qui permet d'aménager l'espace et les environnements de travail de manière rationnelle et intelligente.
